PETROLEUM ENGINEER PUBLICATIONS

1962 ANNUAL INDEX FOR VOLUME XXXIV

Petroleum Management

SUBJECT INDEX

TITLE OF ARTICLE AND AUTHOR	MONTH
COMMUNICATIONS Employees Paint Company's Image, G. E. Kiser	Feb.
Can You Write a Good Engineer's Report?, Robley D. Stevens	Mar.
The Art of Talking, Roswell L. Atwood	Apr.
What's In a Name?	May
Why You Need Reading Power	July
You Can Gain Reading Power	Aug.
How to Read Technical Works	Oct.
ECONOMICS Seek New Concepts For Real Gains, Ernestine Adams	Jan.
Subdued Competition Strikes Back, Ernestine Adams	Feb.
Energy Policy Needs Competition	Feb.
10-Year Cost of Oil and Gas	Feb.
Share the Risk With Uncle	Mar.
What West Europe's Oil Will Cost, L. Schepers	Mar.
Price Wars Hold Profits to 60%	Mar.
Capital Outlays Up 6% in '62 (15th Annual Report Survey), Ernestine Adams	May
Record Volume Permits Earnings Rise, Ernestine Adams	June
Oil Industry Leases More Equipment, Robert Sheridan	Aug.
Profits Move Up--Reports From 80 Companies, Ernestine Adams	Sept.
What Petroleum Costs, Ernestine Adams	Nov.
Earnings Jump in Third Quarter	Dec.
EDUCATION AND TRAINING Can You Write a Good Engineer's Report?, Robley D. Stevens	Mar.
The Art of Talking, Roswell L. Atwood	Apr.
Set Up Gas Center	June
Evaluating Your Performance, William E. Schlender	Nov.
Management Goes to School	Nov.
How to Succeed in Business by Really Trying	Dec.
FOREIGN Esso Markets Libyan Oil	Jan.
Processing Capacity--Exports Mount Higher	Jan.
Subdued Competition Strikes Back, Ernestine Adams	Feb.
10-Year Cost of Oil and Gas	Feb.
Nation Becomes Oil-Sufficient	Feb.
What West Europe's Oil Will Cost, L. Schepers	Mar.
Can Soviet Keep Expanding Exports?	Apr.
Infant Industry Takes on Muscle	May
Political Moves Overshadow Operational Gains (15th Annual World Round-Up), Ernestine Adams	June
How Do You Spell "Company"?	July
Burma Operations	Aug.
Poland Seeks Integrated Industry, K. I. Turyn	Nov.
LEGISLATION Share the Risk With Uncle	Mar.
New Gas Pricing Areas Proposed	Aug.
MANAGEMENT METHODS Have You Set Your Goal?, M. L. Powers	Mar.
Creative Imagination, Paul M. Stafford	Mar.
Future Managers Will Make Things Happen, George S. Odiorne	Mar.
Time of Your Life	Apr.
Don't Fear New Ideas, Paul Stillson	June
Simplify That Problem	July
Teamwork: or Individualism?, Robert F. McCain	Dec.
OPERATIONS Oil and Gas Operations for 73 Companies, Ernestine Adams	Oct.
Helium System Begins Operating	Nov.
Depth Records in 81 Countries, Ernestine Adams	Nov.
ORGANIZATIONS The Changing World of API	Nov.
PERSONNEL Text for Executive Promotion	Feb.
Can You Write a Good Engineer's Report?, Robley D. Stevens	Mar.
What Is An Engineer?, Mary Thompson Garner	May
Employment Holds Line in Petroleum Industry	Sept.
How to Succeed in Business by Really Trying	Dec.
PUBLIC AFFAIRS How Company Political Programs Work, Ernestine Adams	Oct.
PUBLIC RELATIONS Employees Paint Company's Image, G. E. Kiser	Feb.
The Art of Talking, Roswell L. Atwood	Apr.
RESEARCH Mulch Technique Upgrades Crops	June
New Process Lays Asphalt Under Water	July

SUBJECT INDEX

TITLE OF ARTICLE AND AUTHOR — MONTH

DRILLING

ALASKA — Alaska: Wildcatting and Thinking Big — June
Drilling Ship in Action in Alaska, Ross A. McClintock — Aug.
AUSTRALIA — Australia's Pay Promise Soars — June
BITS — Trends Promise More Hole for Less Money, L. L. Payne, H. B. Woods & R. S. Grant — Jan.
Turbodrill Successful in Aquitaine Basin, B. Voog — June
How to Read Dull Bits (Insert) — Oct.
Well Planning for Improved Profits, William M. Koch — Nov.
CASING — Liner Hanging Cuts Deep Well Casing Costs, J. E. Kastrop — Jan.
Simulated Testing of Tubing-Casing Joints, V. Hauk — Mar.
Four Corners Casing Failures, Arthur M. Smith — July
CEMENTING — Plan Turbulence Into Your Cement Jobs, John L. Buster — May
COMPLETIONS — Where Completion Trends Are Taking Us, Weldon L. Porter — Jan.
Slimhole Completions Proved Practical in Ohio, Brady G. Johnson — Feb.
Five Parallel Strings in Open Hole — May
Mud Dye Tells Water Source in DST, Robert E. Eckels — May
Plan Turbulence Into Your Cement Jobs, John L. Buster — May
Sun Oil Accepts Citronelle Challenge, J. E. Kastrop — Aug.
Sea Floor Drilling-Completion System Proved, J. E. Kastrop — Sept.
Notch-Jetting Solves Tough Completions, C. O. Van Note, Jr. — Sept.
Completions - California-Style, G. L. Gates and H. J. Lechtenberg — Nov.
Well Planning for Improved Profits, William M. Koch — Nov.
Robot Shows Off at Offshore Exhibit — Dec.
CONTRACT DRILLING — Successful Contracting Takes PLP, Thomas E. McDowell — June
Rig Surveys Show Drilling Rise — Aug.
CORROSION — Four Corners Casing Failures, Arthur M. Smith — July
CROOKED HOLE — Square Drill Collars Control Hole Deviation, W. E. Bingman, Jr. — Apr.
DEEP DRILLING — Deeper, Faster, Cheaper, James A. Short — Mar.
Deep Drilling Costs Lower in 1961, J. E. Kastrop and Lowell A. Murphy — Mar.
20,800-Ft Dry Hole for $1 1/4 Million — Mar.
U.S. Deep Wells Set Record, J. E. Kastrop — Apr.
Will Soviets Beat U.S. to Moho? — June
DRILL PIPE — Buoyancy Effects on Drill Pipe Clarified, Gerhard Kuehne — Mar.
DIRECTIONAL DRILLING — Using Turbodrill for Directional Drilling, Gerhard Kuehne — July
DRILLING COSTS — Trends Promise More Hole for Less Money, L. L. Payne, H. B. Woods and R. S. Grant — Jan.
Cost Control Through Performance Evaluation, Wilson J. Bentley — Feb.
Deeper, Faster, Cheaper, James A. Short — Mar.
Deep Drilling Costs Lower in 1961, J. E. Kastrop and Lowell A. Murphy — Mar.
20,800-Ft Dry Hole for $1 1/4 Million — Mar.
Deep Drilling Costs Lowered in 1961 (U.S. Deep Wells Set Record), J. E. Kastrop — Apr.
Trucking Rate Fight Rocks Oilfields, John Scott — June
Well Planning for Improved Profits, William M. Koch — Nov.
DRILLING METHODS — Deeper, Faster, Cheaper, James A. Short — Mar.
Deep Drilling Costs Lower in 1961, J. E. Kastrop and Lowell A. Murphy — Mar.
Electric-Arc Drilling May Be Near — Apr.
Turbodrill Successful in Aquitaine Basin, B. Voog — June
Turbodrilling Service Holes Sparks Interest, Paul Alyre — Sept.
Sea Floor Drilling-Completion System Proved, J. E. Kastrop — Sept.
DRILLSTEM TESTING — Mud Dye Tells Water Source in DST, Robert E. Eckels — May
EQUIPMENT — What's New in Patents, Paul H. Johnson and James R. Head — Jan.
What's New in Patents, Paul H. Johnson and James R. Head — Mar.
Square Drill Collars Control Hole Deviation, W. E. Bingman, Jr. — Apr.
Oilfield Equipment Sales Rise Seen — Apr.
Selecting Right Hose for the Job — June
Basin Show Held "Finest Ever" — Dec.
EXPLORATION — Tomorrow-Mindedness in Exploration, Warren L. Taylor — Jan.
Handles Any Standard Seismic Technique — Apr.
Record-Time Artic-Summer Survey — May
Australia's Pay Promise Soars, John Scott — June
Alaska: Wildcatting and Thinking Big — June
Will Soviets Beat U.S. to Moho? — June
Philippine Oil Search Continues — June
Drilling Ship in Action in Alaska, Ross A. McClintock — Aug.
Ireland's First Wildcat Test — Sept.
Medina Gas Trend: Appalachian Target, Frederick L. Stead — Sept.
INSTRUMENTATION — Drilling-Time Log the Instant Way, J. H. Bartley — Apr.
OFFSHORE DRILLING — From Freighter to Drilling Ship — Apr.
ODECO to Use "Island" for Gulf Drilling — Apr.
Drilling Ship in Action in Alaska, Ross A. McClintock — Aug.
BP Speeds Way-Offshore Plans in Persian Gulf — Sept.
Sea Floor Drilling-Completion System Proved, J. E. Kastrop — Sept
Robot Shows Off at Offshore Exhibit — Dec.
OUTLOOK — Where Completion Trends Are Taking Us, Weldon L. Porter — Jan.
Tomorrow-Mindedness in Exploration, Warren L. Taylor — Jan.
Trends Promise More Hole for Less Money, L. L. Payne, H. B. Woods and R. S. Grant — Jan.
Ups and Downs in Drilling Forecast — Mar.
Electric-Arc Drilling May Be Near — Apr.
Drilling Outlook...Another Year of the Blues?, John Scott — Oct.

TITLE OF ARTICLE AND AUTHOR — MONTH

PATENTS — What's New in Patents, Paul H. Johnson and James R. Head — Jan.
What's New in Patents, Paul H. Johnson and James R. Head — Mar.
What's New in Patents, Paul H. Johnson and James R. Head — Apr.
What's New in Patents, Paul H. Johnson and James R. Head — May
What's New in Patents, Paul H. Johnson and James R. Head — July
What's New in Patents, Paul H. Johnson and James R. Head — Sept.
PERFORATING — Notch-Jetting Solves Tough Completions, C. O. Van Note, Jr. — Sept.
PERSONNEL — Cost Control Through Performance Evaluation, Wilson J. Bentley — Feb.
The Sharp Split Over the 6-Day Week, John Scott — Oct.
RATE OF PENETRATION — Deeper, Faster, Cheaper, James A. Short — Mar.
Drilling-Time Log The Instant Way, J. H. Bartley — Apr.
REGULATIONS — Texas' Crooked-Hole Scandal, John Scott — Sept.
RIGS — From Freighter to Drilling Ship — Apr.
ODECO to Use "Island" for Gulf Drilling — May
Automation Saves in Well Servicing, Frank M. Pool and R. W. Gerlich — May
Sea Floor Drilling-Completion System Proved, J. E. Kastrop — Sept.
Rig Obsolescence Can Be Retarded, Robert E. McCarley — Oct.
SLIMHOLE DRILLING — Slimhole Completions Proved Practical in Ohio, Brady G. Johnson — Feb.
STATISTICS — U.S. Deep Wells Set Record, J. E. Kastrop and Lowell Murphy — Apr.
Rig Surveys Show Drilling Rise — Aug.
TRANSPORTATION — Trucking Rate Right Rocks Oilfields, John Scott — June
PESA Hits ICC Driver Rules — July
TUBULAR GOODS — Simulated Testing of Tubing-Casing Joints, V. Hauk — Mar.
Square Drill Collars Control Hole Deviation, W. E. Bingman, Jr. — Apr.
TURBODRILL — Turbodrill Successful in Aquitaine Basin, B. Voog — June
Using Turbodrill for Directional Holes, Gerhard Kuehne — July
Turbodrilling Service Holes Sparks Interest, Paul Alyre — Sept.
WORKOVERS — Remedial vs. Redrill at Wilmington, Stanley V. Hamilton — Dec.
Convertible Rig Can Workover or Service, C. Robert Woodruff — Dec.
Case Studies Underscore Workover Success, Purvis J. Thrash — Dec.

PRODUCTION

ARTIFICIAL LIFT — Auto-Clutch Improves Intermittent Pumping, Kenneth Stunz — Apr.
Turnkey Assignment: Ideal Gas Lift, C. D. Fletcher — May
Attacking Deep 2-Phase Pumping Problems, H. G. Haddenhorst and K. Horn — July
AUTOMATION — Automated Fracturing for Better Control — May
Pembina Readied for Automation — May
Automation Saves in Well Servicing, Frank M. Pool and R. W. Gerlich — May
Radio Control Spells Safety at Sour Gas Field, M. Dieumegard and R. Paillasa — Nov.
A Look at the First Computer-Controlled Oilfield, W. E. Steman — Nov.
Robot Shows Off at Offshore Exhibit — Dec.
CASING — Liner Hanging Cuts Deep Well Casing Costs, J. E. Kastrop — Jan.
Simulated Testing of Tubing-Casing Joints, V. Hauk — Mar.
CEMENTING — Plan Turbulence Into Your Cement Jobs, John L. Buster — May
COMPLETIONS — Where Completion Trends Are Taking Us, Weldon L. Porter — Jan.
Slimhole Completions Proved Practical in Ohio, Brady G. Johnson — Feb.
Choke Assembly Permits Downhole Commingling, J. W. Hodges — Mar.
Five Parallel Strings in Open Hole — May
Mud Dye Tells Water Source in DST, Robert E. Eckels — May
Plan Turbulence Into Your Cement Jobs, John L. Buster — May
Sun Oil Accepts Citronelle Challenge, J. E. Kastrop — Aug.
Sea Floor Drilling-Completion System Proved, J. E. Kastrop — Sept.
Notch-Jetting Solves Tough Completions, C. O. Van Note, Jr. — Sept.
Completions - California-Style, George L. Gates and Harold J. Lechtenberg — Nov.
Well Planning for Improved Profits, William M. Koch — Nov.
Robot Shows Off at Offshore Exhibit — Dec.
CORROSION — Four Corners Casing Failures, Arthur M. Smith — July
EQUIPMENT — What's New in Patents, Paul H. Johnson and James R. Head — Jan.
What's New in Patents, Paul H. Johnson and James R. Head — Mar.
Choke Assembly Permits Downhole Commingling, J. W. Hodges — Mar.
Auto-Clutch Improves Intermittent Pumping, Kenneth Stunz — Apr.
Test Results on New Gas Flow Meters, E. L. Upp — Apr.
Oilfield Equipment Sales Rise Seen — Apr.
Production Technology Scores Economic Victory, Lowell A. Murphy — May
Selecting Right Hose for the Job — June
Basin Show Held "Finest Ever" — Dec.
FIELD DEVELOPMENT — Esso Libya Sets Fast Pace at Zeltan, J. E. Kastrop — Apr.
Pembina Readied for Automation — May
Abgaig LPG Injection Plant Under Test — June
Unique Unit Plan Saves McComb Field, John Scott — July
Deep Gas Field's Recovery to Multiply, J. E. Kastrop — July
Sun Oil Accepts Citronelle Challenge, J. E. Kastrop — Aug.
BP Speeds Way-Offshore Plans in Persian Gulf — Sept.
Medina Gas Trend: Appalachian Target, Frederick L. Stead — Sept.
A Look at the First Computer-Controlled Oilfield, W. E. Steman — Nov.
FRACTURING — Automated Fracturing for Better Control — May
GAS INJECTION — Abgaig LPG Injection Plant Under Test — June
Deep Gas Field's Recovery to Multiply, J. E. Kastrop — July

TITLE OF ARTICLE AND AUTHOR	MONTH
GAS LIFT Turnkey Assignment: Ideal Gas Lift, C. D. Fletcher	May
Differential Control: New Look in Gas Lift, W. F. "Bill" Krause, Jr.	Oct.
Ways to Calculate Gas Flow and Static Head, Khalis Aziz	Nov.
GAS PROCESSING Economic Liquid Recovery from Lean Gas Streams, Wesley M. Crow and William C. Goodson	Jan.
Plant Strips Profit from Lean Gas, Paul Landtiser and Jerry R. McIntyre	May
GATHERING SYSTEMS Pigging Proves Liquid-Recovery Booster, H. Norman Eagleton	Feb.
IMPORTS Imports and Politics Hot IPAA Issue	June
INDEPENDENT PRODUCER Will the Independent Producer Survive?, John Scott	Aug.
LIQUID RECOVERY Economic Liquid Recovery from Lean Gas Streams, Wesley M. Crow and William C. Goodson	Jan.
Pigging Proves Liquid-Recovery Booster, H. Norman Eagleton	Feb.
Plant Strips Profit from Lean Gas, Paul Landtiser and Jerry R. McIntyre	May
METERING Test Results on New Gas Flow Meters, E. L. Upp	Apr.
OFFSHORE PRODUCTION A First - Underwater Storage in Mobile Mats, Ray S. Lacy and John C. Estes	May
BP Speeds Way-Offshore Plans in Persian Gulf	Sept.
Sea Floor Drilling-Completion System Proved, J. E. Kastrop	Sept.
Robot Shows Off at Offshore Exhibit	Dec.
OUTLOOK Where Completion Trends Are Taking Us, Weldon L. Porter	Jan.
Free World Supply-Demand Picture Shifts	June
Will the Independent Producer Survive?, John Scott	Aug.
McCollum Sees Oil Growth Industry Still	Dec.
PARAFFIN Just Hours to Field-Evaluate Paraffin Inhibitors, L. T. Stanley and J. E. Thomas	Oct.
PATENTS What's New in Patents, Paul H. Johnson and James R. Head	Jan.
What's New in Patents, Paul H. Johnson and James R. Head	Mar.
What's New in Patents, Paul H. Johnson and James R. Head	Apr.
What's New in Patents, Paul H. Johnson and James R. Head	May
What's New in Patents, Paul H. Johnson and James R. Head	July
What's New in Patents, Paul H. Johnson and James R. Head	Sept.
PERFORATING Notch-Jetting Solves Tough Completions, C. O. Van Note, Jr.	Sept.
PERSONNEL Cost Control Through Performance Evaluation, Wilson J. Bentley	Feb.
PRESSURE MAINTENANCE Unique Job Saves McComb Field, John Scott	July
Deep Gas Field's Recovery to Multiply, J. E. Kastrop	July
PRODUCING RATE Choke Assembly Permits Downhole Commingling, J. W. Hodges	Mar.
Ways to Calculate Gas Flow and Static Head, Khalid Aziz	Nov.
PRODUCTION COSTS Cost Control Through Performance Evaluation, Wilson J. Bentley	Feb.
Production Technology Scores Economic Victory, Lowell A. Murphy	May
Producing Profits Takes Vision, E. L. Petree	May
PRODUCTION METHODS Choke Assembly Permits Downhole Commingling, J. W. Hodges	Mar.
100,000 Bpd Is Latest Athabasca Goal	Sept
Completions - California-Style, G. L. Cates and H. J. Lechtenberg	Nov.
PUMPING Auto-Clutch Improves Intermittent Pumping, Kenneth Stumm	Apr.
Attacking Deep 2-Phase Pumping Problems, H. G. Haddenhorst and K. Horn	July
REGULATIONS Texas' Crooked-Hole Scandal, John Scott	Sept
RESERVOIR ENGINEERING Flow Tests Find Formation Damage Limits, James E. Cornett	Feb.
New Concept Extends Pressure Build-Up, William Hurst, Orville K. Haynie and Richard N. Walker	Aug.
SAND CONTROL Plastic Stops Sand But Not Oil Flow	Apr.
King-Size Filter Solves Sand Problem	Aug.
SECONDARY RECOVERY Fizz Flood Plant Attracts Attention, Lowell A. Murphy	Feb.
Waterflooding Proves Production Pacemaker, Albert H. Sweeney, Jr.	Apr.
Abagnig LPG Injection Plant Under Test	June
SEPARATION Esso Libya Sets Fast Pace at Zelten, J. E. Kastrop	Apr.
STATISTICS Stripper Wells Show Big Increase	Jan.
Waterflooding Proves Production Pacemaker, Albert H. Sweeney, Jr.	Apr.
Free World Demand-Supply Picture Shifts	June
API Reviews Supply-Demand Picture	Dec.
Another Increase in Stripper Well Output	Dec.
STORAGE A First - Underwater Storage in Mobile Mats, Ray S. Lacy and John C. Estes	May
TAR SANDS 100,000 Bpd Is Latest Athabasca Goal	Sept
TUBULAR GOODS Simulated Testing of Tubing-Casing Joints, V. Hauk	Mar.
UNITIZATION Unique Unit Job Saves McComb Field, John Scott	July
WATERFLOODING Fizz Flood Plant Attracts Attention, Lowell A. Murphy	Feb.
Waterflooding Proves Production Pacemaker, Albert H. Sweeney, Jr.	Apr.
How to Size Water Distribution Lines, W. K. Garms	July
WELL SERVICING Plastic Stops Sand But Not Oil Flow	Apr.
Automation Saves in Well Servicing, Frank M. Pool and R. W. Gerlich	May
Convertible Rig Can Workover or Service, C. Robert Woodruff	Dec.
Remedial vs. Redrill at Wilmington, Stanley V. Hamilton	Dec.
Case Studies Underscore Hydraulic Workover Success, Purvis J. Thrash	Dec.
Well Servicers Eye Big Work, Small Profit, John Scott	Dec.
Remedial vs. Redrill at Wilmington, Stanley V. Hamilton	Dec.
Convertible Rig Can Workover or Service, C. Robert Woodruff	Dec.
Case Studies Underscore Workover Success, Purvis J. Thrash	Dec.
WORKOVERS Case Studies Underscore Workover Success, Purvis J. Thrash	Dec.
Convertible Rig Can Workover or Service, C. Robert Woodruff	Dec.
Remedial vs. Redrill at Wilmington, Stanley V. Hamilton	Dec.

AUTHOR INDEX

AUTHOR	MONTH
Alyre, Paul Turbodrilling Service Holes Sparks Interest	Sept.
Aziz, Khalid Ways to Calculate Gas Flow and Static Head	Nov.

Preview of Features You Will Want to Read in Coming Issues

of the Oil and Gas Industry's leading International Engineering-Operating Magazines

Unique Four Editions Let Reader Pick The Coverage He Needs

Today's complex oil and gas industry activities are performed by two distinct groups: **First . . . by specialists** who are engaged in only one of the industry's three basic divisions. **Second . . . by Management** whose duties span more than one of the three basic divisions.

The Petroleum Engineer Publishing Company's unique Four Editions Publishing Plan recognizes that only the individual knows the scope of his interest. From a choice of these Four Editions, the specialist or the man in management can select the Edition edited expressly for him.

PETROLEUM MANAGEMENT

PETROLEUM MANAGEMENT is the only "all-industry" monthly magazine for operating management. This publication carries all content appearing in the three 'Engineer" publications listed below. For details of Emphasis Issues and Additional Features, see summary given for all three specialized publications.

PETROLEUM ENGINEER

INTERNATIONAL MONTHLY published for engineering/operating/management specialists in the drilling, producing and exploration fields. Prepared by experience-qualified engineering writers, special reports provide practical information and advanced techniques for improved operations . . . modern procedures for maintenance and repair . . . tables, reports and research data of proven field value. Regular monthly features include continuing refresher and training home study courses in the fundamentals of drilling, production and well servicing. Subscribers receive 13 issues each year, including the annual new equipment reference issue published in mid-July.

EMPHASIS ISSUES: January — "Outlook" for the coming year, featuring economic forecasts by leading men in the industry. **March — "Deep Drilling Issue"** with exclusive data (including costs) on every well drilled below 15,000 feet in the U. S. and Canada during preceding year. March issue includes special pull-out "Rig Locator" section, with location and specifications on contract drilling and well servicing rigs available in the U. S. and Canada. **July 15 — "World-Wide New Equipment Guide". October — "Drilling Progress Report"**, a roundup of recent innovations in both techniques and equipment for improved drilling and well servicing operations. **December — Special "Well Servicing and Workover Issue".**

MANAGEMENT SECTION: Each issue contains 80-page Management Section (same in all editions of PE) with significant developments and news from all divisions of the petroleum industry; continuing **"Global Notebook"** series covering the past, present and future world-wide petroleum industry, country by country; plus 44-installment **"How To Be A Manager"** series with practical suggestions for improving managerial skills by men who have reached top executive positions in the petroleum industry.

PETRO/CHEM ENGINEER

INTERNATIONAL MONTHLY published for the Hydrocarbon Processing Industry, featuring articles of special interest to design engineers and invaluable to all engineering/operating specialists in refining, petrochemicals and gas processing. Regular monthly features are designed to keep readers up-to-date concerning rapidly developing new processes, techniques and equipment for improved plant design that aid in better operations, reduced maintenance costs. Subscribers receive 13 issues each year, including the annual new equipment reference issue published in mid-July.

EMPHASIS ISSUES: January — "Outlook" for the coming year, featuring economic forecasts by leading men in the industry. **March — "Process Instrumentation Issue"**, a roundup of progress and new Instrumentation applications in HPI. **July 15 — "World-Wide New Equipment Guide"**, a contemporary parade of products, with engineering data and applications for new processing and petrochemical equipment/services. **September — "HPI Maintenance Issue"**, featuring an evaluation of the equipment and techniques developed for improved maintenance.

MANAGEMENT SECTION: Each issue contains 80-page Management Section (same in all editions of PE) with significant developments and news from all divisions of the petroleum industry; continuing **"Global Notebook"** series covering the past, present and future world-wide petroleum industry, country by country; plus 44-installment **"How To Be A Manager"** series with practical suggestions for improving managerial skills by men who have reached top executive positions in the petroleum industry.

PIPELINE ENGINEER

INTERNATIONAL MONTHLY published for engineering/operating/construction/management specialists in gas, crude and products pipelining. Regular features, prepared by experience-qualified authorities, cover advanced techniques and improved procedures for pipeline construction, operations and maintenance. Monthly issues include a continuing home study course on the fundamentals of oil and gas pipelining that is designed to update men of all experience levels. Subscribers receive 13 issues each year, including the annual new equipment reference issue published in mid-July.

EMPHASIS ISSUES: January — "Outlook" for the coming year, featuring economic forecasts by leading men in the industry. **February — "Pipeline Handbook"** issue, a compilation of useful tables, charts and nomographs for rapid solution of pipeline design, construction, communication, controls and corrosion problems. (Note: This issue is NOT sold separately; available only one copy to a subscriber.) **March — "Corrosion Report"** with intensive study of causes, detection and cures by recognized corrosion authorities. **April — "Progress in Operations Issue"**, featuring an analysis of the best new ideas in pipeline operations, maintenance and controls. **November — "Pipeline Construction, Review and Forecast Issue"**, covering pipeline construction innovations and major projects completed during the past 12 months . . . proposed or scheduled, world-wide, for the coming year.

MANAGEMENT SECTION: Each issue contains 80-page Management Section (same in all editions of PE) with significant developments and news from all divisions of the petroleum industry; continuing **"Global Notebook"** series covering the past, present and future world-wide petroleum industry, country by country; plus 44-installment **"How To Be A Manager"** series with practical suggestions for improving managerial skills by men who have reached top executive positions in the petroleum industry.
